Carry your happiness

ERRES
all transistor
portable

Wherever you go: with the new ERRES All Transistor Portable carry your happiness with you. The happiness of being able to enjoy your favourite symphony, favourite light program, favourite radio everywhere and under all circumstances.

And almost immediately the ERRES Portable will become your favourite and your best (travelling) companion.

Because the ERRES All Transistor Portable is so much more than a simple portable: a „full-grown” radio offering brilliant reproduction with a powerful and natural sound.

Let the ERRES Portable — with its extremely light weight but perfect acoustics — double your pleasure: in a quiet corner of a beautiful town, on the warm beach or just in a snug corner of your own home.

with you!

Let you
listen to your
speaker,
your greatest
than

The ERRES Portable is perfect for all kinds of trips and tours because of its general handiness and solid construction. As a permanent „hitch-biker” in your car it offers you moreover the best companionship imaginable: the clearest reception of many more stations than ordinarily. The refined musical instrument — as we may rightly call the ERRES Portable — is placed in a beautifully designed cabinet which will adorn every room of your house. And think of the economic side too: the 1½ V batteries are virtually inexhaustible.

**technical
data**

7 transistors + 2 diodes — attractive cabinet with leatherette rear cover and plastic front — 3 waveranges: MW 185-585 m SW₂ 35-84 m SW₁ 13-36 m — 1 oval electrodynamical loudspeaker of 6" x 4" — 4 pushbuttons for on/off and waveband selection — ferrite aerial (8") — convertible frame aerial on the outside of the set — power supply by 6 dry batteries 1½ V (flashlight cells) — output 500 mW — sensitivity more than 5 μV — dimensions 11½" x 7½" x 4" — weight 2,5 kg (without batteries) — fully tropicalised.
